PILOT-TALK

Pilots and ground people must speak clearly to each other on the airplane's radio, so they use the phonetic alphabet to communicate. Each letter has a matching word that starts with that letter.

Can you match the letter in the left column with its code word in the right column? An example has been done for you.

MAKE YOUR OWN PINWHEEL

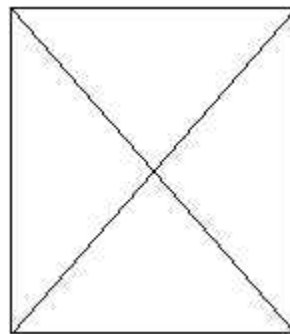

MATERIALS:

- Square sheet of paper
- Straight pin
- Pencil with eraser
- Scissors

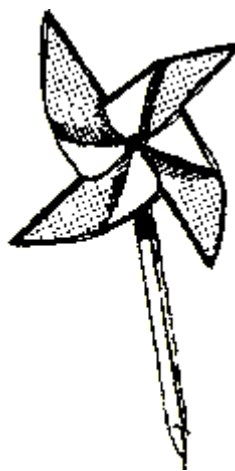

Fold the paper diagonally

Fold it again.

Now, when you open the paper and lay it out flat, it will have an "x" creased through it. Cut along each fold to within one inch of the center. Pick up one corner and hold it in the center. Do this with each of the other corners. Keep them in the center by sticking a straight pin through them, then stick the pin through the eraser. Move your windmill through the air and watch it spin!
